

Kray Cabling, Inc.

Electrical Contractor, CA License 669281

*In business since 1985, **KRAY** is*

*a small woman-
owned business,
specializing in the
design and
installation of local*

*area networks and telephone cable
systems.*

*From the beginning, we have been
determined to set ourselves apart
from other service providers by
providing the kind of service that we
all look for, but seldom find: Honest,
Competent and Thorough. We
continue that service in honor and
memory of our founder, Jess Kray.*

Kray Cabling, Inc.

✓ **Service Area**

We serve the seven county San Francisco Bay Area. Our primary service area covers northeast to Sacramento, south to Monterey and east to Livermore.

✓ **Response Time**

Usually within two or three days. Trouble calls are handled the same day.

✓ **Insurance**

We are fully insured for liability and worker's compensation. Safety is a major area of employee education and concern. We are able to obtain bid and performance bonds when required.

✓ **Media Experience**

We are experienced in the design, installation and troubleshooting of all types of twisted pair (UTP) cable, serial cable, coaxial cable and fiber optic cable.

✓ ***Kray is an equal opportunity employer.***

• ***Voice and Data Cabling***

Kray specializes in the design and installation of cabling systems for office local area networks and telephone premises wiring. **Kray** is prepared to provide everything from a single patch cord or cable for overhead speakers to the design and installation of cabling systems for an entire high-rise building or campus environment.

• ***Cabinets and Relay Racks***

In addition to cable installations, **Kray** will lay out and install computer room equipment including patch panels, equipment cabinets, relay racks, seismic restraints, etc. We are experts at closet cleanup.

• ***Special Design***

Kray will review architectural drawings and plans. **Kray** will evaluate the adequacy of existing cable for new tenants. **Kray** can repurpose existing cable plants.

• ***Power***

Kray is fully licensed to install power centers, electrical distribution wiring, dedicated circuits, battery backup power systems, underground and overhead services, etc.

• ***Testing***

Every pair of every cable installed by **Kray** is tested for opens, shorts, swaps and reversals. When indicated, **Kray** will certify installed cables for compliance with EIA/TIA specifications.
